

SCA CELEBRATES INTERNATIONAL EDUCATION WEEK

International students from China, South Korea, and Spain presented and led activities in K-12 classes during International Education Week. Presentation topics ranged from Chinese fashion trends to Christmas in Spain.

SCA parent Mrs. Esther Lee shared a presentation on South Korea in Mrs. Stiglic's first grade class. She and her youngest son Ezekiel came to school dressed in traditional clothing. Mrs. Lee's son Isaiah is an SCA first grade student.

K-6 students celebrated with an international lunch each day. In the secondary, class discussions included the following topics:

- Bible verses about the world/nations and how those verses apply to us.
- The definition of cultural intelligence and scenarios when it is important to understand people from different cultures and how to interact with them.
- How going on a mission trip can change your perspective. Discussion included students who had been on mission trips, where they went, and what they did.
- Things that all cultures share - unifying factors.
- Interesting things learned from an SCA international student or someone from another country.

We appreciate the SCA international students who participated in International Education week by sharing about their lives, cultures, and home country traditions.

L-R: Ezekiel Lee and SCA parent Mrs. Esther Lee.
